no talking during tests. One more

ACT II

INT. A ROOM — NIGHT

CAMERA ZOOMS ON THE IMAGE ON THE TV. THE NEWS ARE ON.

NARRATOR

In the past couple of days we were getting reports from people around the world who are said to be 'changing' into unidentified life forms. "Are we facing the Armageddon?" is the one question we all have been asking during this time. One young man managed to capture in video a change as it was happening.

Once this video went viral, ships started landing in Japan, Russia, Italy, France, Germany, London, New York.

We have gotten intelligence reports that these aliens call themselves Lukonians and their leader was called Phaedra. As they told, they came in peace to help the human race. They had seen the widespread devastation across the planet and came to aid us by helping to restore the planet and help its regeneration.

With no signs of aggression from the Lukonians, the leaders of the world have now come together and formed an alliance with their race. What they proposed was a very practical solution that would be very beneficial to Earth. The Lukonians pointed out that there were many of them who had been living among the people of Earth for decades. It was Lukonians technology that had been used by humans to create most of Earth's electrical devices.

According to reports, members of an elite secret organization had known of the existence of these beings. The Lukonians offered to build Medical Centres where the people of Earth could seek treatment for any diseases. As time passed the Lukonians became a 'norm', they lived outside of their ships and Medical Centres and interacted daily with the humans.

Months passed and they became integrated into the society. But of course there are still many people who are not comfortable with the strong alien presence on the planet and there are constant riots and protests in the streets in front of the Centres...

The TV is switched off as a hand is seen in focus returning the Remote Control.

INT. LUKONIANS MEDICAL CENTRE – DAY

The doors in to the Medical Centre opens as a young girl is seen being rushed in to the medical room. A man who came in with her is directed towards a glass door.

Inside the room there is a floating bed and several large monitors. Lukonians staff comes forward to assess the condition of the girl. The man stands back, watching as they work. A steady beep echoes around the room.

The man looks over at his daughter while a female Lukonian approaches him.

LUKONIAN NURSE

Sir.

He turns to look at her.

LUKONIAN NURSE

Are you alright? Did you sustain any injuries yourself?

(Her voice lacks of emotion)

He didn't answer to her question. The man is worried and distrustful.

LUKONIAN NURSE

Your daughter will be awake in a few moments.

EXT. ST PETERSBURG – NIGHT

A group are going to the Lukonians Centre in St Petersburg, Russia. Suddenly, a number of screams are heard as explosives go off.

The sounds of blasts rent the air as people and Lukonians trying to escape from the danger zone.

INT. THE PRESIDENT HOME - DAY

CAMERA FOCUSES ON THE PRESIDENT OF RUSSIA.

PRESIDENT

We are appalled by this act of selfishness by these rascal citizens which is affecting not just the Lukonians but also the humans.

Whether they realize it or not, ever since the Lukonians came here there have been countless positive changes all over the world. We will ensure that we track down these selfish people and bring them to responsibility!

The TV is switched off as a hand is seen in focus returning the Remote Control.

ACT III

EXT. BUSY STREET - DAY

It's early morning. People are seen going about their business as usual.

Suddenly, a loud alarm sounds through the air. Hands automatically cover ears and everyone looks up and around to find the source. Some people are looking strange, as if they are frozen.

The horn sounds once more and then all is quiet. The people on the street drops their hands and looks at the Medical Centre.

Phaedra, the leader of the Lukonians comes in to focus through a projected image on the side of their med centers.

PHAEDRA

People of Earth!

We have been patient with you and have given you time to adjust to the idea of my people and all that we have to offer. But now it is time for action.

Anyone who has yet to visit one of our med centers, might I suggest you do so as soon as possible. This is not a request. Failure to comply will not be tolerated.

Constance, the young lady, is shocked. A voice beside her is heard.

MAN

Was that just a threat?

CONSTANCE

I have no idea if it was a threat or a promise...

JONAH

Hi... I'm Jonah...

CONSTANCE

Constance.

Jonah seems pleasantly surprised by the girl in front of him. Constance is looking around at the others, some just standing and staring with a confused look on their faces.

CONSTANCE'S THOUGHTS

Oh, God, I hope my dad will be fine... What is going on here? What do they want from us?

JONAH

I'm going to get some answers...

CONSTANCE

Wait! How? I'm coming with you!

As they walked out they noticed that no one else seemed to be doing anything other than looking scared.

EXT. THE STREETS – DAY

All day it is chaos in the streets. Lukonians spaceships, are catching people and carrying them off. The streets are being clear out of "frozen" people.

Jonah looks at Constance with concern.

JONAH

Don't worry, your dad will be fine...

CONSTANCE

(Shocked)

What?

How did you...? I never told

you... I don't understand...

JONAH

Well, yeah, I guess I am a freak... I read that in your mind... whatever.

Constance is staring at him, shocked.

CONSTANCE

What do you mean "read"? You think you can hear people thoughts? Do you have any idea how crazy that sounds?

Nice try, trying to cheer me up, but please don't get creepy.

JONAH

Let me explain...

CONSTANCE

And who is your father?

I mean, do you know how you got your abilities?

JONAH

Well, I've never really thought about how I got them, but I've never seen my dad and my mom ... She died a long time ago. I never got the chance to talk to anybody about my powers.

EXT. PARKING GARAGE – DAY

Jonah and Constance are seen hidden away under the parking garage of a random building.

They made contact using an old shortwave radio.

RADIO VOICE

There had already been recorded births between humans and Lukonians. The products of these unions are powerful beings, their potential is so great it's scary to think what the Lukonians can accomplish with these children.

Flashing scenes of people being installed with microchips by Lukonians and frozen pregnant woman in Medical Centres.

JONAH

Constance, there's something you should know. I'll tell you when

you meet my people tonight...

INT. THE HIDDEN ROOM NIGHT

Jonah and his people are seen making plans and this lasts all through the night.

They are seen making contact with other people while they plan to attack on the several Medical Centres all around the World.

EXT. THE MED CENTER – NIGHT

Jonah and Constance are seen going to the Medical Centre. It's early morning. Everything is silent.

Jonah scans for thoughts as they approaches the building and found nothing. They moves quickly, theirs eyes are sharp and ears listening for signs of Lukonians. Jonah stops suddenly and points up to the right. They rushes forward quietly to open the door.

Inside is a massive chamber lined with women in different stages of pregnancy.

Suddenly an alarm sounds loudly throughout the room. Jonah breaking away from the team starts to run alone. He passes many doors and senses there were more people behind them.

JONAH'S THOUGHTS

There is something behind those doors...

The doors are open and Jonah founds himself in what looks to be a control room.

PHAEDRA

It took you a long time to find me...

Phaedra stands in front of Jonah, tall and proud. They look at each other.

Phaedra attacks his mind. A look of shock passes quickly over Phaedra's face as Jonah's shields comes down.

PHAEDRA

I have a glimpse inside your mind, Jonah...

Jonah using his telekinetic ability pulls objects across the room and directs them at Phaedra, who stops them easily. The battle of wills escalates with Jonah. Phaedra is inside of his mind. They stand, as frozen.

PHAEDRA

Jonah... You are one of us...

JONAH

No! Never! I am not one of you
and I will never be!

PHAEDRA

I am your father, Jonah...

Jonah stares over at Phaedra in disbelief.

PHAEDRA

I was not the first leader of the
Lukonians. Years ago I had lived
on Earth as a human. I found
Lara, a woman I loved but I had
to leave when I was called back
to my people. I never told her
goodbye. I had no idea she had
been expecting a baby when I left
her.

While Phaedra is talking, Jonah launches a sharp mental
attack knocking Phaedra off his feet, not giving him no
time to recover, he opens his mind fully and targets it
at Phaedra. Within moments, Phaedra falls down without
any move. Jonah gets up and looks around the room,
noticing the women were still asleep; he scans and
quickly locates what looks to be a control panel.
Disables everything he can find, he looks back to see
that something is happening and the women looks to be
waking up.

EXT. THE FIELD - DAY

Constance looks at the sky as Lukonians ships all over
the world launches and begins moving. They are leaving.
Whatever the rebels had done had worked. People goes out
into the streets celebrating as the ships are leaving.

DISSOLVE TO:

Constance is seen sitting on a bench under a tree; she
sees Jonah and her father coming. She gets up and runs
towards them, tears streaming down her face. Her father
runs to meet her. Jonah stands back, giving them a
moment. He sits on a bench and looks at the sky. He is a
bit sad for a moment. He looks at Constance. She smiles.
